Dr. Joshua Lederberg,
President
Rockefeller University
New York, New York 10021

Dear Dr. Lederberg,

Sol Snyder, with whom I am associated at Johns Hopkins, has told me of the interest at Rockefeller University of establishing a research group in Psychopharmacology in association with the Department of Psychiatry at Cornell. Since I have been invited to present a lecture in the Neurobiology course by Bruce McEwen, I will be visiting Rockefeller University on December 13. If it would be convenient for you, this might be an opportunity for me to introduce myself to you.

Sincerely,

A handwritten signature in cursive script, which appears to read "Joseph T. Coyle". To the right of the signature is a hand-drawn arrow pointing downwards towards the printed name below.

Joseph T. Coyle, M.D.
Associate Professor of
Pharmacology and Psychiatry
